

# 2023

## ANNUAL REPORT

The Academy of Model Aeronautics is a world-class association of modelers organized for the purpose of promotion, development, education, advancement, and safeguarding of modeling activities.

The Academy provides leadership, organization, competition, communication, protection, representation, recognition, education, and scientific/technical development to modelers.

## Nats Celebrates 100 Years of Competition

AMA celebrated the 100th anniversary of the first Nats, beginning appropriately enough with rubber-powered Indoor FF aircraft flown indoors in Moscow, Idaho. It ended weeks later with RC Helicopters at the AMA International Aeromodeling Center (IAC) in Muncie, Indiana. The Nats was presented by Du-Bro, a legacy US manufacturing company that has supported model aviation enthusiasts for decades. Being the 100th anniversary of the first Nats made it something special as well. "There was a buzz in the air regarding the 100th-year celebration ... and people have taken the time to make the annual trek to Muncie, Indiana," noted competitor Dan Kane.

While AMA celebrated the 100th anniversary of the first Nats, three Special Interest Groups (SIGs) were commemorating milestones of their own. NSRCA, the Precision Model Pilots Association (PAMPA), and the Miniature Aircraft Combat Association (MACA) all celebrated their 50th year at award banquets following the end of their respective contests. SIGs are responsible for running the Nats, a move made by AMA in the mid-1990s.

Learn more about Nats in the November 2023 issue of *Model Aviation*.

# AMA and Foundation Grants and Contributions

**\$55,082.65** **Flying Site Improvement Grant**  
32 clubs were funded for field improvements.

**\$14,042** **Take off And Grow Grant**  
22 clubs were supported for outreach events.

**\$6,500** **Disaster Relief Grants**  
13 clubs were helped in recovery efforts.

**\$3,925** **Club Recognition and Reward Grants**  
32 clubs were rewarded for media coverage.

**\$40,500** **Scholarships**  
8 AMA youth members received scholarships.

## Save America's Treasures Grant

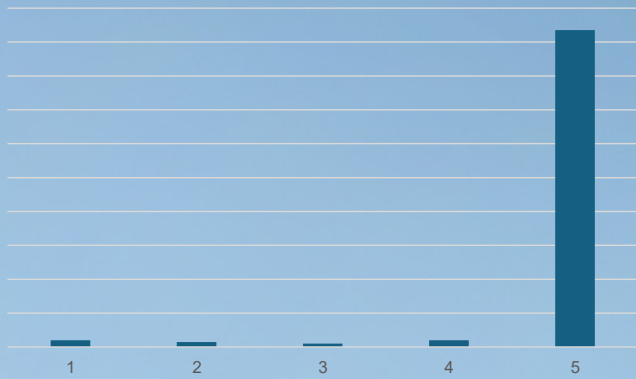

AMA's National Model Aviation Museum was awarded \$66,000 from a Save America's Treasures (SAT) Grant through the National Trust for Historic Preservation. The museum applied for an SAT Grant focusing on two major collections in our archives, the Robert Henderson Munn Collection and the Wischer Family Collection. Combined, these represent nearly 21,500 aeromodeling related images, and include slides, negatives, prints, and photo albums. The grant allowed the museum to purchase scanning equipment and hire a digitizing specialist.

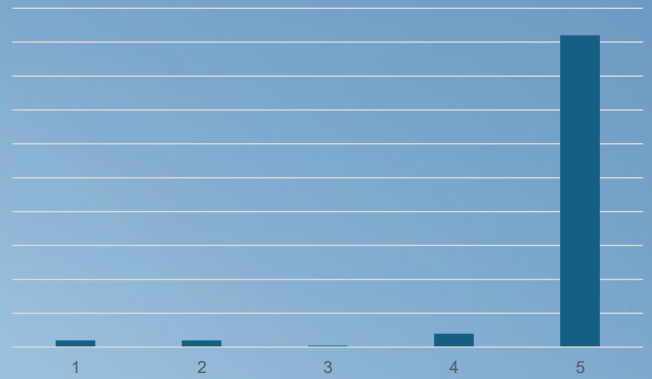

# Member Services Receives High Marks

Members are frequently asked to fill out a membership service survey after contacting AMA Headquarters. Below are highlights from our member services survey.

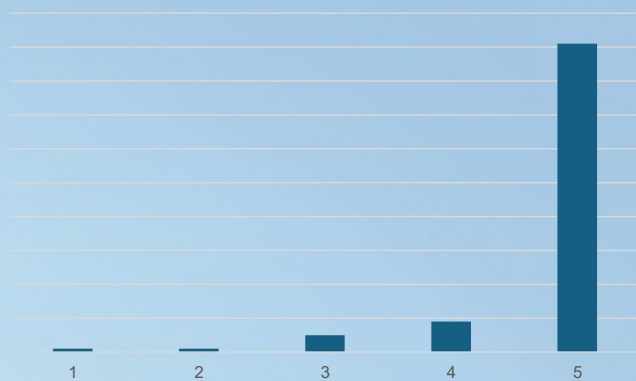

On a scale of 1-5, with 5 being the highest, please rate your satisfaction with member service?

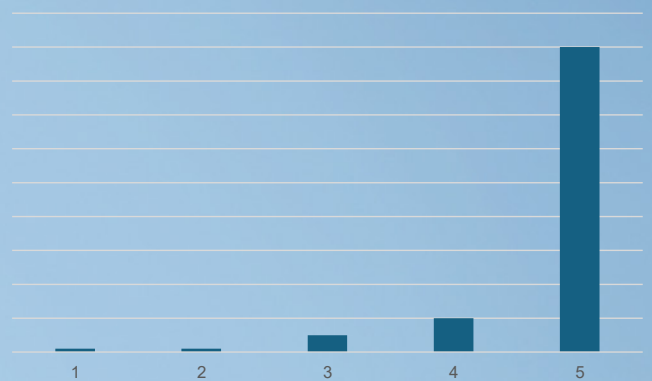

On a scale of 1-5, with 5 being the highest, how responsive was your membership representative?

On a scale of 1-5, with 5 being the highest, how knowledgeable was your membership representative?

On a scale of 1-5, with 5 being the highest, how well was your issue resolved?

Membership Customer Service Survey Jan. to Dec. 2023

# Member Competition, Events, and Recognition

## ***Nats Manual***

SIG members, AMA staff, and Executive Council conducted a comprehensive revision of the *AMA Nats Manual*. They revised outdated content, created efficiencies, and reviewed all processes.

## ***AMA Blue Book***

The Fédération Aéronautique Internationale (FAI) Executive Committee, working with staff and SIG members, spent nearly 500 cumulative hours conducting a thorough audit of the *Bluebook*, which provides procedures governing AMA teams participating in FAI events.

## **FAI General Conference**

The National Aeronautic Association (NAA) hosted the FAI General Conference this year in the USA. AMA attended the conference, presented during dinner receptions, and participated in discussions with NAA, FAI, and other aerospace leaders. (Photo courtesy of NAA.)

## **National Fun Fly**

AMA hosted the fourth annual National Fun Fly. This three-day event included multiple flightlines safely spread across the IAC and a membership meeting. The 2023 National Fun Fly was conducted June 23-25. Learn more at [www.modelaircraft.org/funfly](http://www.modelaircraft.org/funfly).

# AMA Dominates CIAM Legends Ceremony

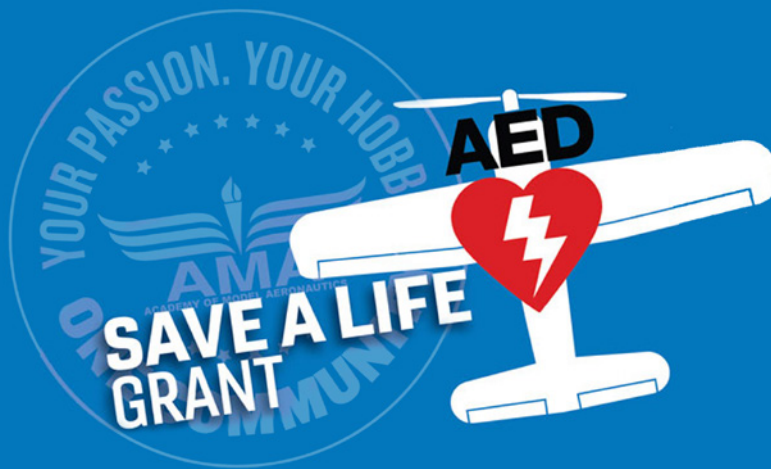

In 2023, the Fédération Aéronautique Internationale's (FAI) Aeromodelling Commission (CIAM) announced a new medal to honor pilots who have won the title of FAI World Champion in any aeromodelling or spacemodeling competition three times. This significant award aims to acknowledge the exceptional contributions of the most skilled aeromodelers and spacemodelers. It also seeks to recognize these individuals as icons of their sport for all aspiring pilots, who demonstrate the hard work, dedication, and passion required to achieve greatness in air sports.

More than any other country or aerosport, AMA members received more CIAM Legends Medals than any other country or aerosport. Congratulations to the following members:

Robert Biedron, Steve Brown, Chris Flanigan, Les McDonald, Daryl Perkins, Jim Richmond, David Shadel, Jim Shinohara, William Werwage, and Curtis Youngblood.

Photo courtesy of National Aeronautic Association (NAA).

## Al Kanser AED Save A Life Grant Launches

In 2023, the Academy of Model Aeronautics Foundation created the Al Kanser AMA AED Save A Life Grant in order to help promote safer and more medically equipped flying sites. This grant is designed to reimburse clubs for 25% (up to \$200) of the cost of a recently purchased Automated External Defibrillator (AED). AEDs, which are easy to use, can be critical when helping someone who is experiencing sudden cardiac arrest.

Awards for the Al Kanser AMA AED Save A Life Grant are based on a first-come, first-served basis. When the allotted budget for the year is reached, awards will be discontinued for the year. Clubs can be awarded a maximum of \$200 per year.

The AMA has also entered into an official partnership with the Red Cross, which will provide AMA members and AMA chartered clubs with specialized offers for first aid, CPR, and AED training, as well as discounts for AED devices. Contact Mark Jones Sr. at [mark.jonesr@redcross.org](mailto:mark.jonesr@redcross.org) to get more details on discounts and training.

Note: Neither the AMA nor the AMA Foundation retain liability for the club's purchase of an AED. It is the responsibility of the club and its members to receive proper AED training and maintain the device.

Rachelle Haughn, Donor and Programs Specialist, is available to answer questions. She will review your application and will award the appropriate funds within two weeks of the application submission.

# Active Military Discount Launches

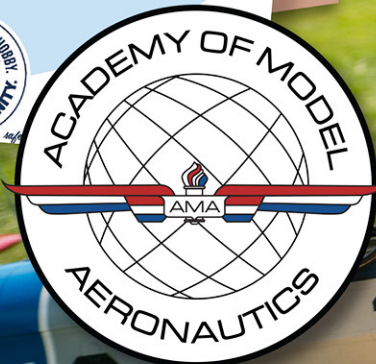

From the Navy Nats to working on federal committees, AMA has a rich history of supporting and working with our military. During the April EC meeting the District II Vice President Eric Williams and the District I Vice President Andy Argenio made the motion "to offer a first year initial member rate of \$49 through 2024, to active US military personnel no later than June 1, 2023." The motion passed and within a couple weeks AMA staff launched the program. To learn more, visit [www.modelaircraft.org/military](http://www.modelaircraft.org/military).

## AMA has a new introductory offer!

**\*\$49** This introductory offer is for active-duty U.S. military personnel's first year of membership.  
\*offer ends December 31, 2024

**September**  
Boise Area Rado Kontrol Society (BARKS)

**October**  
Denver RC Eagles

**November**  
Northern Connecticut RC Club

**December**  
Barnstormers RC Club, Inc.

# Joyce Hager Retires After 53 Years

There are few individuals, if any, who have given a lifetime of work to AMA. Joyce dedicated 53 years of service to AMA starting February 2, 1970 and retiring on August 4, 2023. Her years of contributions to AMA are beyond exceptional and will most likely never be matched.

District II VP Eric Williams kindly put forward the compendium for Joyce's AMA Model Aviation Hall of Fame nomination, which was approved by the committee and the Executive Council. In addition to the AMA Model Aviation Hall of Fame, she was awarded the AMA Lifetime Achievement Award, the Carl and Beth Goldberg Vital People Award, and the AMA Fellow Award, recognizing her as an AMA Fellow.

Former District VIII VP and Safety Coordinator Jim Rice stated, "She is a defender of what is right for AMA, no matter who she butts heads with or what the personal consequences might be. She has been my advisor and friend and attends events across the country, demonstrating her support and love of this great hobby!"

Happy retirement Joyce.

# Grouper

## Qualified Members Get Dues Reimbursed

For years we've shared how model aviation is a healing hobby-good for your mental and physical well-being. We believe in this so much, that members now can be eligible to get your AMA membership covered reimbursed by your health plan.

In 2023 AMA launched a partnership with Grouper (formally Element-3 Health) to allow members age 65 and over, with an eligible health plan, will have their membership costs fully covered.

Grouper works with Medicare Advantage and Medicare Supplement plans to cover membership dues. If you qualify, you will receive a yearly check to reimburse your membership.

To learn more visit [modelaircraft.org/grouper](https://modelaircraft.org/grouper).

# AMA Committee Work

Over 20 committees are formed every year by the AMA EC to evaluate programs and recommend changes. Below are two more significant committee changes that were implemented in 2023.

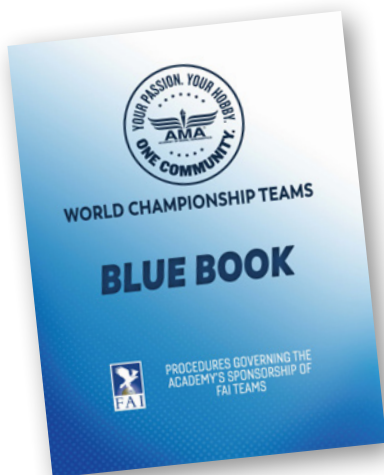

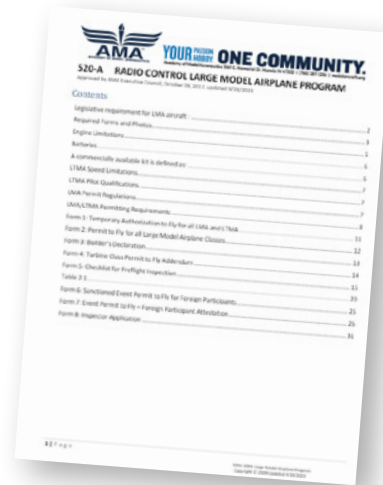

## Park Pilot Content Migrates

Although the Fall 2023 issue of *Park Pilot* magazine will be the last printed issue of the magazine, *Park Pilot* content will be migrated into all other digital and print platforms, including *Model Aviation*. Instead of Park Pilot members receiving four quarterly publications, they will now have access to monthly content in *Model Aviation* Digital. The Park Pilot program remains a viable and important AMA endeavor.

## Large Model Helicopters Programming Launches

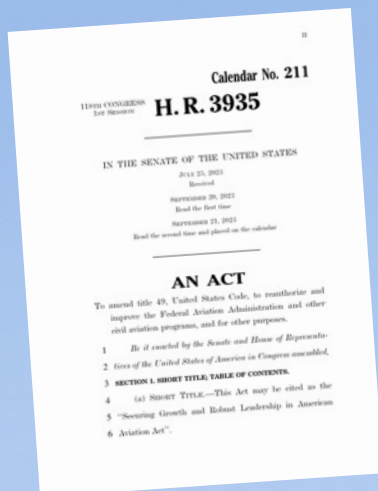

Since 2022, the AMA Safety Committee has been studying the emergence of turbine-powered large model helicopters. The committee worked with SIGs, subject matter experts, the EC, and the FAA to develop safety programming around the platform. On August 23, 2023, the EC voted to approve the Radio Control Large Model Helicopter Program, assigned as document 520-A.

## Competition Operating Manuals Updates

The FAI Executive Committee and the Nats Planning Committee independently conducted complete audits of their respective competition manuals, proposed edits, and sought EC approval for changes. You can find these documents on [modelaircraft.org](http://modelaircraft.org).

# Advocating for Our Clubs, Members, and Hobby

## AMA Returns to Capital Hill

Both the House and Senate released their 2023 FAA Reauthorization bills. AMA was able to influence both bills with the Senate also including AMA's amendments. AMA thanks Senator Todd Young (IN) and Senator Dan Sullivan (AK) for sponsoring the amendment. Both bills offered solutions to some of the issues that our recreational community currently faces, including a process to fly above 400 feet above ground level (AGL), exemptions for low-impact operations, provisions for educational activities, and resolutions for Remote ID. AMA will continue to shape the language as it evolves into a final bill.

## AMA Submits Comments to the Federal Register

AMA partnered with other industry leaders to include EAA, to comment against FAA's Office of Airports considerations to change the definition of "aeronautical activity" and exclude recreational UAS/model aircraft from this definition. AMA is also requesting that model aircraft be included in the definition, or at the very least, provide a carveout for CBO chartered clubs, sanctioned events, and model aircraft air shows.

### AMA Secures Remote ID FRIA Status

After nearly 3,500 hours of work and the hiring of two temporary staffers, AMA secured FAA-Recongized Identification Area (FRIA) status for nearly every AMA flying field prior to Remote ID implementation slated in 2024. This means members can continue to fly as they always have at a FRIA. AMA is working on an exemption with the FAA for the approximately 80 clubs that did not receive FRIA status.

### AMA Secures Higher Altitudes for Sanctioned Events

AMA is happy to share that we have signed a new Letter of Agreement with the FAA to continue to provide higher altitudes for AMA sanctioned events in uncontrolled (Class G) airspace for 2024. The AMA event sanctioning process currently includes an assessment for operations to be approved up to 700 or 1,200 feet AGL.

### AMA Invited to UAS Rulemaking Committee

AMA is honored to have been invited and accepted an invitation to be part of the FAA's UAS Detection and Mitigation Aviation Rulemaking Committee (ARC). As a member of the ARC, AMA will help make recommendations to the FAA on how to best integrate counter-UAS technologies across the United States while preserving the safety and efficiency of the National Airspace System.

## Education Programming Expands

In 2023, AMA was selected by the FAA to launch a program to help teach 9th through 12th grade students about science, aerodynamics, engineering, aviation, drones, and safe flying practices. Additionally, this effort will encourage 9th through 12th grade students to pursue careers in aviation-related fields, in support of the FAA's Aviation and Space Education (AVSED) goals.

- AMA's efforts reached students in all 50 states and Washington D.C.
- 100% of the survey respondents indicated "As a result of using the kits, my students have been introduced to new potential career options."
- 100% of the survey respondents indicated "... students found the kits fun and engaging!"
- 2,500 kits were distributed as part of the program.

### UAS4STEM Grows By Offering A Beginner Class

AMA gathered students from around the country at AirVenture, to compete as part of the 2023 UAS4STEM national championship (sponsored by Skydio). These student teams compete using drones they have built themselves. Thanks to EAA and our sponsors, including Skydio, for supporting this program.

### AMA Collaborates With Global Counterparts

The AMA EC approved plans for AMA to share educational programming with sister organizations, including the British Model Flyers Association.

### AMA Expands Partnerships

One of AMA's more notable partnerships in 2023 was held during this memorandum-of-understanding (MOU) signing ceremony. Photoed are acting FAA Administrator Polly Trottenberg and AMA President Rich Hanson agreeing to collaborate and promote STEM programming.

The AMA recently played host to the distinguished recipients of the Air and Space Forces Association (AFA) Teacher of the Year awards. As the evening progressed, attendees had the chance to engage in conversation and learn about many of the programs that the AMA offers to educators.

# Member Generosity

The AMA Foundation continues to grow and provide more funding for AMA programs each year. Thanks to the following members who made a contribution to the AMA Foundation.

Note: This list represents every donor who gave in 2023 and their current donor recognition level (bronze, silver, etc.) based on their cumulative gifts. The Heritage and Legacy Society Members are Lifetime Members, so those lists represent any donor who has reached those levels, regardless of whether they gave in 2023.
